DARSHAN KUSUMAKAR

SCRUM MASTER | AGILE DELIVERY | .NET TECHNICAL BACKGROUND

8602519202 | 8889652146 | dkartz131@gmail.com | linkedin.com/in/xyresic-darshan

PROFESSIONAL SUMMARY

Scrum Master and software development professional with 5+ years of experience in enterprise application development and experience facilitating Agile delivery since August 2025. Facilitate Scrum ceremonies, coordinate engineering, product, and QA collaboration, monitor sprint velocity and backlog health, and help remove delivery blockers. Brings a technical foundation in .NET, REST APIs, Angular, and SQL Server to support clear communication between technical teams and product stakeholders. Seeking Scrum Master opportunities focused on predictable delivery, team collaboration, and continuous improvement.

CORE COMPETENCIES

Agile Delivery: Scrum, Agile practices, sprint planning, daily stand-ups, sprint reviews, retrospectives, continuous improvement

Sprint & Backlog Management: Backlog grooming, story estimation, sprint execution, backlog health, sprint velocity, delivery metrics

Team Facilitation: Cross-functional collaboration, engineering/product/QA coordination, transparent communication, blocker identification and removal

Technical Background: C#, .NET, REST APIs, Angular, AngularJS, Entity Framework, SignalR, Azure WebJobs

Database & Tools: Microsoft SQL Server (MSSQL), stored procedures, query optimization, DevExpress, DevExtreme, SSMS, Postman, Git

PROFESSIONAL EXPERIENCE

Workpulse Software Pvt. Ltd.

Scrum Master | August 2025 – Present

- Facilitate Scrum ceremonies, including sprint planning, daily stand-ups, sprint reviews, and retrospectives for engineering teams.
- Coordinate collaboration across engineering, product, and QA teams to support shared priorities and delivery alignment.
- Track sprint velocity, backlog health, and delivery metrics to identify delivery concerns and support team improvement.
- Identify and help remove delivery blockers to enable efficient sprint execution.
- Support adoption of Agile practices and transparent communication workflows.

Senior .NET Developer | August 2025 – Present

- Design, develop, and maintain enterprise web applications using .NET and Angular.
- Build and maintain REST APIs supporting multiple enterprise product modules.
- Investigate defects and improve application reliability through debugging and technical improvements.
- Collaborate with product and QA teams to deliver product enhancements and software releases.

.NET Developer | August 2023 – August 2025

- Developed web clients and reporting dashboards using .NET, Angular, and DevExpress.
- Built and maintained API services and database procedures for enterprise product modules.
- Investigated and fixed defects through testing and debugging, helping reduce user-reported issues.
- Collaborated with cross-functional teams to deliver product enhancements.

Junior .NET Developer | August 2021 – August 2023

- Supported API development and integration across application modules.
- Contributed to product testing, quality assurance, and defect investigation.
- Developed foundational experience in enterprise application development and team-based delivery.

SELECTED PRODUCT EXPERIENCE

Workpulse Book — Enterprise compliance and operations platform for task tracking, reporting, and operational visibility across multiple locations.

Technologies: .NET, Angular, AngularJS, DevExpress, Azure WebJobs, MSSQL

Workpulse Audit — Audit management platform supporting compliance checks and operational monitoring across multiple stores.

Technologies: .NET, AngularJS, DevExpress, REST APIs, Azure WebJobs, Entity Framework, Stored Procedures

Workpulse People — Employee training and assessment platform for onboarding pathways and skills development.

Technologies: .NET, AngularJS, DevExtreme Reports, REST APIs, Azure WebJobs, Stored Procedures

Workpulse Desk — Enterprise ticket management system for tracking operational issues and coordinating resolution workflows.

Technologies: .NET, Angular, AngularJS, SignalR, REST APIs, Azure WebJobs, Stored Procedures

Workpulse Wow — Employee recognition platform supporting peer-to-peer appreciation and engagement programs.

Technologies: .NET, AngularJS, REST APIs, Azure WebJobs, Entity Framework, Stored Procedures

Workpulse Gismo — Guest Satisfaction Management (GSM) system for tracking, assigning, and resolving customer cases across multiple locations.

Technologies: .NET, Angular, REST APIs, Azure WebJobs, Entity Framework, HTML, CSS, JavaScript, jQuery, Stored Procedures

LEADERSHIP & ACHIEVEMENTS

- Co-Organizer, Google Developers Group (GDG) Indore: helped organize workshops and community events for 1,000+ attendees.
- Secured third place in a research paper presentation at the National Conference on Research and Innovation in Education.
- Organized technical sessions and workshops to encourage participation and knowledge sharing.

EDUCATION

B.Tech, Computer Science & Engineering | Sagar Institute of Research & Technology, Indore

Rajiv Gandhi Technical University, Bhopal | August 2021
